

# Mira: the most trusted hormone monitor

Mira is a palm-sized, smart hormone tracker that monitors your key fertility hormones (LH, E3G, PdG and FSH). It offers easy-to-read charts, pinpoints your ovulation day and 6-day fertile window, and confirms your ovulation.

## The Mira Monitor tracks key fertility hormones

E3G

Predict your full 6-day fertile window

LH

Predict your ovulation day

PdG

Confirm you ovulated

FSH

Know if your body's fertility is healthy and track perimenopause

## How it works

The Mira App's advanced algorithm provides accurate and personalized information about your cycle, hormone levels, and fertile window.

**Step 1**  
Dip the test wand into urine for 20 seconds.

**Step 2**  
Insert the wand into the Mira Analyzer.

**Step 3**  
In 21 minutes, your hormone results will automatically sync with the Mira App.

## Who is Mira for?

Mira is for any individual or couple who is planning or struggling to get pregnant, especially for women dealing with:

- ✓ PCOS
- ✓ hormonal imbalances and irregular cycles
- ✓ transitioning off birth control
- ✓ fertility health issues
- ✓ post-hysterectomy
- ✓ perimenopause

Step 1: Download Mira Fertility mobile app
